INTERNATIONAL COOPERATION ADMINISTRATION FY 1960 ISSUE NO. 2

P R E F A C E

This *Operations Report* was prepared by the Office of Statistics and Reports of the International Cooperation Administration, Washington, D.C.

The charts and statistical tables appearing in this report cover the obligations and expenditures against the various programs administered by ICA, with detail by category of funds, type of assistance, region, country, and commodity.

FISCAL YEAR 1960 PROGRAM vs. TREND DATA

In those sections of the report dealing with "FY 1960 program" data exclusively, with no other year shown, it may be noted that the data on obligations vary slightly for some countries from data for FY 1960 reported in statements showing a trend over successive years. This is because the trend data each year is calculated on a *net* basis, with the deobligations which occurred during any year subtracted from the increases during the year, and any reobligations added back in -- which is the only way to avoid double-counting when the aid figures are added up over a period or on a cumulative basis.

^{a/}Negative figures denote U.S. dollar expenditures financing surplus commodity sales where the equivalent local currency sales proceeds will be used to finance commodity exports to a third country. Corresponding positive amounts reflect local currency aid credits to third country beneficiaries of triangular sales agreements.

^{b/}Includes \$1,000 thousand cash transaction.

^{c/}Reflects net reductions of undistributed expenditures.

INTERNATIONAL COOPERATION ADMINISTRATION FY 1960 ISSUE NO. 3

P R E F A C E

This *Operations Report* was prepared by the Office of Statistics and Reports of the International Cooperation Administration, Washington, D.C.

The charts and statistical tables appearing in this report cover the obligations and expenditures against the various programs administered by ICA, with detail by category of funds, type of assistance, region, country, and commodity.

FISCAL YEAR 1960 PROGRAM vs. TREND DATA

In those sections of the report dealing with "FY 1960 program" data exclusively, with no other year shown, it may be noted that the data on obligations vary slightly for some countries from data for FY 1960 reported in statements showing a trend over successive years. This is because the trend data each year is calculated on a *net* basis, with the deobligations which occurred during any year subtracted from the increases during the year, and any reobligations added back in -- which is the only way to avoid double-counting when the aid figures are added up over a period or on a cumulative basis.

INTERNATIONAL COOPERATION ADMINISTRATION FY 1960 ISSUE NO. 4

P R E F A C E

This *Operations Report* was prepared by the Office of Statistics and Reports of the International Cooperation Administration, Washington, D.C.

The charts and statistical tables appearing in this report cover the obligations and expenditures against the various programs administered by ICA, with detail by category of funds, type of assistance, region, country, and commodity.

FISCAL YEAR 1960 PROGRAM vs. TREND DATA

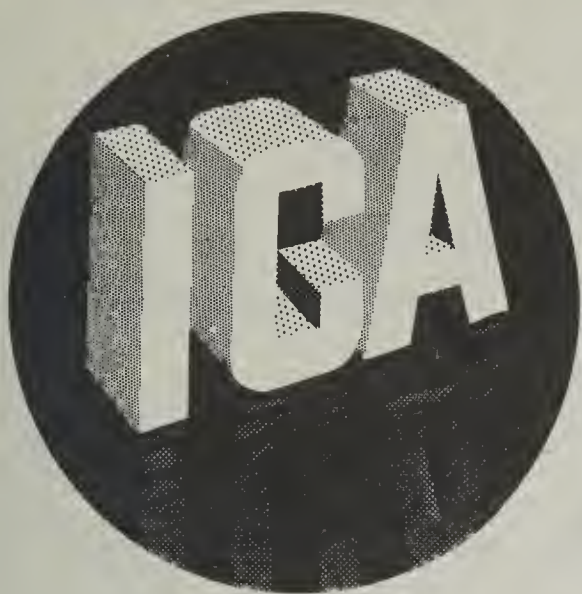

In those sections of the report dealing with "FY 1960 program" data exclusively, with no other year shown, it may be noted that the data on obligations vary slightly for some countries from data for FY 1960 reported in statements showing a trend over successive years. This is because the trend data each year is calculated on a *net* basis, with the deobligations which occurred during any year subtracted from the increases during the year, and any reobligations added back in — which is the only way to avoid double-counting when the aid figures are added up over a period or on a cumulative basis.

WASHINGTON, D. C.

OPERATIONS REPORT

Data as of December 31, 1960

P R E F A C E

This *Operations Report* was prepared by the Office of Statistics and Reports of the International Cooperation Administration, Washington, D.C.

The charts and statistical tables appearing in this report cover the obligations and expenditures against the various programs administered by ICA, with detail by category of funds, type of assistance, region, country, and commodity.

FISCAL YEAR 1961 PROGRAM vs. TREND DATA

In those sections of the report dealing with "FY 1961 program" data exclusively, with no other year shown, it may be noted that the data on obligations vary slightly for some countries from data for FY 1961 reported in statements showing a trend over successive years. This is because the trend data each year is calculated on a *net* basis, with the deobligations which occurred during any year subtracted from the increases during the year, and any reobligations added back in -- which is the only way to avoid double-counting when the aid figures are added up over a period or on a cumulative basis.

GENERAL NOTE: This statement has been revised since the last time it was presented to show actual obligations by fiscal year against loan agreements. Previously in most cases the full face amounts of the loans were shown, whether or not the loan agreements were implemented by actual obligations in that year.

^{a/}Two lines of credit totalling \$35 million were extended to Burma. \$31.5 million was obligated by the end of fiscal year 1959, but deobligations of \$3.8 million during FY 1960 reduced the cumulative total under these lines of credit to \$27.7 million, the level at which it now stands.

^{b/}A \$15 million line of credit was extended to Indonesia in fiscal year 1957. All of this was obligated in 1957 and 1958, but deobligations of \$3.3 million in fiscal year 1960 brought the total now obligated down to \$11.7 million.

^{c/}Defense Department loan to Peru from Mutual Security Program Military Assistance funds in fiscal year 1955, and increased by \$0.7 million in fiscal year 1958.

^{a/}Loan of Danish kroner, obtained by the U.S. from sales of surplus agricultural commodities to Denmark in fiscal year 1955; Denmark actually reloaned the kroner to Iceland for a cement plant — the loan to be repaid in dollars. In 1955 the ultimate aid recipient was unknown; the "aid" was credited to "Other Europe".

^{b/}Includes the equivalent of \$0.6 million in local currencies obtained by the U.S. from sales of surplus agricultural commodities to Denmark and Netherlands. This was credited as "aid" to "Other Europe" (\$0.3 million in 1955) and to Netherlands (\$0.4 million in 1954).

^{c/}Non-interest bearing loan signed by the People-to-People Health Foundation, Inc.

OPERATIONS REPORT

Data as of March 31, 1961

P R E F A C E

This *Operations Report* was prepared by the Office of Statistics and Reports of the International Cooperation Administration, Washington, D.C.

The charts and statistical tables appearing in this report cover the obligations and expenditures against the various programs administered by ICA, with detail by category of funds, type of assistance, region, country, and commodity.

FISCAL YEAR 1961 PROGRAM vs. TREND DATA

In those sections of the report dealing with "FY 1961 program" data exclusively, with no other year shown, it may be noted that the data on obligations vary slightly for some countries from data for FY 1961 reported in statements showing a trend over successive years. This is because the trend data each year is calculated on a *net* basis, with the deobligations which occurred during any year subtracted from the increases during the year, and any reobligations added back in -- which is the only way to avoid double-counting when the aid figures are added up over a period or on a cumulative basis.

GENERAL NOTE: This statement shows loan obligations by fiscal year activity, irrespective of fiscal year in which the loan agreements were signed.

^{a/}Two lines of credit totalling \$35 million were extended to Burma. \$31.5 million was obligated by the end of fiscal year 1959, but deobligations of \$3.8 million during FY 1960 reduced the cumulative total under these lines of credit to \$27.7 million, the level at which it now stands.

^{b/}A \$15 million line of credit was extended to Indonesia in fiscal year 1957. All of this was obligated in 1957 and 1958, but deobligations of \$3.3 million in fiscal year 1960 brought the total now obligated down to \$11.7 million.

^{c/}Defense Department loan to Peru from Mutual Security Program Military Assistance funds in fiscal year 1955, and increased by \$0.7 million in fiscal year 1958.

- ^{a/} Loan of Danish kroner, obtained by the U.S. from sales of surplus agricultural commodities to Denmark in fiscal year 1955; Denmark actually reloaned the kroner to Iceland for a cement plant -- the loan to be repaid in dollars. In 1955 the ultimate aid recipient was unknown; the "aid" was credited to "Other Europe".
- ^{b/} Includes the equivalent of \$0.6 million in local currencies obtained by the U.S. from sales of surplus agricultural commodities to Denmark and Netherlands. This was credited as "aid" to "Other Europe" (\$0.3 million in 1955) and to Netherlands (\$0.4 million in 1954).
- ^{c/} Non-interest bearing loan signed by the People-to-People Health Foundation, Inc.

^{a/} Negative figures denote U.S. dollar expenditures financing surplus commodity sales where the equivalent local currency sales proceeds will be used to finance commodity exports to a third country. Corresponding positive amounts reflect local currency aid credits to third country beneficiaries of triangular sales agreements.

^{b/} Shown in total only, without regional detail.

^{c/} Represents reduction against dollar advances made in FY 1960 for various procurement authorizations. This adjustment will continue to be reduced as vouchers are presented.

^{d/} Not distributed by region and country. *Special program for Tropical Africa.

NOTE: Data represent net expenditures; negative figures are due to occasional refunds or adjustments to prior year records.

[†] In order to insure that most ICA funds would be spent in the United States, the Secretary of State, on December 5, 1960 instructed ICA "to effect an orderly cessation of commodity procurement financed with ICA program funds" in 19 specified countries, primarily the West European countries and Japan. These countries, accounted for approximately half of ICA commodity expenditures in fiscal year 1960. The expenditures recorded here by March 31 for these countries were the result of firm obligations and contracts entered into prior to this new procurement policy.

² The December 5 order covered Hong Kong only. The ICA country code system at that time included British North Borneo, Brunei, Hong Kong, Sarawak, and Singapore in one number, with the data for Hong Kong alone not separable in the statistics at this time.

OPERATIONS REPORT

Data as of June 30, 1961

P R E F A C E

This *Operations Report* was prepared by the Office of Statistics and Reports of the International Cooperation Administration, Washington, D.C.

The charts and statistical tables appearing in this report cover the obligations and expenditures against the various programs administered by ICA, with detail by category of funds, type of assistance, region, country, and commodity.

FISCAL YEAR 1961 PROGRAM vs. TREND DATA

In those sections of the report dealing with "FY 1961 program" data exclusively, with no other year shown, it may be noted that the data on obligations vary slightly for some countries from data for FY 1961 reported in statements showing a trend over successive years. This is because the trend data each year is calculated on a *net* basis, with the deobligations which occurred during any year subtracted from the increases during the year, and any reobligations added back in -- which is the only way to avoid double-counting when the aid figures are added up over a period or on a cumulative basis.

GENERAL NOTE: This statement shows loan obligations by fiscal year activity, irrespective of fiscal year in which the loan agreements were signed.

^{a/}Two lines of credit totalling \$35 million were extended to Burma. \$31.5 million was obligated by the end of fiscal year 1959, but deobligations of \$3.8 million during FY 1960 reduced the cumulative total under these lines of credit to \$27.7 million, the level at which it now stands.

^{b/}A \$15 million line of credit was extended to Indonesia in fiscal year 1957. All of this was obligated in 1957 and 1958, but deobligations of \$3.3 million in FY 1960 and a reobligation of \$0.5 million in FY 1961 brings the total obligations to \$12.2 million.

^{c/}Defense Department loan to Peru from Mutual Security Program Military Assistance funds in fiscal year 1955, and increased by \$0.7 million in fiscal year 1958.

^{a/}Loan of Danish kroner, obtained by the U.S. from sales of surplus agricultural commodities to Denmark in fiscal year 1955; Denmark actually reloaned the kroner to Iceland for a cement plant — the loan to be repaid in dollars. In 1955 the ultimate aid recipient was unknown; the "aid" was credited to "Other Europe".

^{b/}Includes the equivalent of \$0.6 million in local currencies obtained by the U.S. from sales of surplus agricultural commodities to Denmark and Netherlands. This was credited as "aid" to "Other Europe" (\$0.3 million in 1955) and to Netherlands (\$0.4 million in 1954).

NOTE: Data represent net expenditures; negative figures are due to occasional refunds or adjustments to prior year records.

† In order to insure that most ICA funds would be spent in the United States, the Secretary of State, on December 5, 1960 instructed ICA "to effect an orderly cessation of commodity procurement financed with ICA program funds" in 19 specified countries, primarily the West European countries and Japan. These countries, accounted for approximately half of ICA commodity expenditures in fiscal year 1960. The expenditures recorded here by June 30 for these countries were the result of firm obligations and contracts entered into prior to this new procurement policy.

‡ The December 5 order covered Hong Kong only. The ICA country code system at that time included British North Borneo, Brunei, Hong Kong, Sarawak, and Singapore in one number, with the data for Hong Kong alone not separable in the statistics at this time.

a/In order to insure that most ICA funds would be spent in the United States, the Secretary of State, on December 5, 1960 instructed ICA "to effect an orderly cessation of commodity procurement financed with ICA program funds" in 19 specified countries, primarily the West European countries and Japan. These countries, accounted for approximately half of ICA commodity expenditures in fiscal year 1960. The expenditures recorded here by June 30 for these countries were the result of firm obligations and contracts entered into prior to this new procurement policy.

b/The December 5 order covered Hong Kong only. The ICA country code system at that time included British North Borneo, Brunei, Hong Kong, Sarawak, and Singapore in one number, with the data for Hong Kong alone not separable in the statistics at this time.

NOTE: The data in this report cover participants arriving in the United States during FY 1960 and FY 1961 and are irrespective of years' funds from which participants were originally programmed or obligated. Participants shown as arriving from countries not receiving regular MSP aid or not currently receiving such aid are being trained under the special programs for "World-Wide Scientists" or "Peaceful Uses of Atomic Energy". This applies in particular to participants from the following countries: Australia, New Zealand, Czechoslovakia, Denmark, Finland, Hungary, Ireland, Netherlands, Poland, Portugal, Rumania, Sweden and Switzerland.

^{a/}Includes independently financed participants arriving in the United States who are approved by ICA. There were 62 of these participants in FY 1960 and 138 in FY 1961. Excludes participants under University Contract Program, of which 323 arrived in FY 1960 and 481 in FY 1961; also excludes participants arriving in the United States who are trained under direction of organizations under contracts requiring other services in addition to participant training, of whom 11 arrived in FY 1960 and 54 in FY 1961.

AGENCY FOR INTERNATIONAL DEVELOPMENT FY 1962

P R E F A C E

This Operations Report was prepared by the Statistics and Reports Division of the Agency for International Development, Washington, D.C.

The charts and statistical tables appearing in this report cover the commitments (obligations and loans authorized) and expenditures against the various programs administered by A.I.D., with detail by category of funds, type of assistance, region, country, and commodity.

The Agency for International Development was created on November 4, 1961. It combined the previous ICA and Development Loan Fund, as well as certain other smaller units. At the same time new categories of aid were established. As a result of all these changes, it has not been possible to present in this report some of the material given in previous reports, particularly in the area of trend series.

GENERAL NOTE: This statement shows Development Loan Authorizations by fiscal year and other A.I.D. loan obligations by fiscal year funds irrespective of fiscal year in which the loan agreements were signed.

^{a/}Includes Basic and Strategic Materials Development Loans by fiscal year.

^{b/}Two lines of credit totalling \$35 million were extended to Burma. \$31.5 million was obligated by the end of fiscal year 1959, but deobligations of \$3.8 million during FY 1960 reduced the cumulative total under these lines of credit to \$27.7 million, the level at which it now stands.

^{c/}A \$15 million line of credit was extended to Indonesia in fiscal year 1957. All of this was obligated in 1957 and 1958, but deobligations of \$3.3 million in FY 1960 and reobligation of \$0.5 million in FY 1961 and \$2.7 million in FY 1962 brings the total obligations to \$14.9 million.

^{d/}Basic Materials Development Loans.
